M6410A, M7410F Non-Spring Return Cartridge Globe Valve Actuator

Cartridge Globe Valve Actuators are small electric actuators for individual room control that provide floating or modulating control of V5852, V5862 two-way or V5853, V5863 three-way valves.

Overview

Cartridge Globe Valve Actuators are small electric actuators for individual room control that provide floating or modulating control of V5852, V5862 two-way or V5853, V5863 three-way valves.

Features & Benefits:

- Suitable for controllers providing floating or modulating signals.
- Magnetic coupling for torque limitation independent of voltage supply and self-adjustment of the close-off port.
- No mounting tools required.
- Small size allows installation in limited space of fan coil units, induction units, and small reheaters or recoolers.
- Visual position indication (red pin).
- M6410A1029 and M7410F1000 provide 40.5 lbf stem force for 1/2 and 3/4 inch V58 Cartridge Globe Valves.
- M6410A3017 and M7410F3006 provide 67.5 lbf stem force for 1 and 1-1/4 inch V58 Cartridge Globe Valves.

Certifications:

- Flammability Rating UL94V-5V
