

24 Port Keystone Patch Panel >

The Molex Connected Enterprise Solutions 24 Port Modular Keystone Jack Patch Panel is a flexible patching solution for small to medium sized installations. The panel is shipped unloaded and can be configured to provide the exact number of ports required. The Keystone Jacks snap in easily and can be removed if required. The Patch Panel features an integral rear cable management tray for ease of installation and cable dressing. Port identification can be provided by utilizing the silk screened areas shown on the front of the panel.
